ST JOHN'S PARK

OVERVIEW / CURRENT STATUS

St. John's Park packages a fishing pier, pond with fountain, wildflowers, ice skating shelter, river access, walking loop, picnic area and ample natural beauty into its small 3.5 acre footprint adjacent to the heart of downtown. The opening of the fishing pier in 2009 provides safe, convenient access to the lake for all ages to enjoy.

Short Term Requirements

- Improve portage on dam and bark river
- Continue paddleboard and kayak rental
- Address water feeder pipe from lake to Fish Hatchery pond
- Expand parking by two more stalls
- Continued maintenance of wildflowers and garden areas
- Purchase property to the south of the park to extend and enhance park activity

Mid Term Enrichments - Long Term Vision

- Work with other government bodies for enhancement of the Genesee St (HWY C) bridge over the bark river
- Improve water management in pond in conjunction with Genesee St. improvement to remove additional silt, and make pond safer for ice-skating

SUMMARY

St. John's Park is a picturesque park that showcases the beauty of Lake Country right in downtown. Delafield's ongoing investment to preserve the access to the lake/pond and to maintain the foliage is enjoyed by those who stop or just drive by.
